The RM of Duck Lake have recently introduced an Express Message Telmatic Alert Notification system. This system allows the RM to notify Rate Payers by either land line/cell phone, text message, or email of any important information (Ex: Fire Bans, etc.), or any emergencies that may occur. The Rm is asking all Rate Payers to supply us with at least one of these means of communication to be put into the notification system. Please fill out the information below and return to the office by mail or e-mail rm463@sasktel.net. (All information will be kept Confidential)
